

PACED Decision Making Model

P – Purpose: Which is the best house to protect the pigs from the Big Bad Wolf?

A – Alternatives: What are the alternatives listed in the story? Do you have any other alternatives?

C – Criteria: What is important in a house?

E – Evaluate the alternatives: What are the costs and benefits of the different alternatives, based on the criteria I chose?

D – Decision: What decision do I make based on the evidence?
